***Reasons for Allowance***

Claims 1, 5, and 6 are allowable over the prior art of record.

The following is an examiner's statement of reasons for allowance: the best prior art of record, Bonet et al., taken alone or in combination of other references, does not teach or fairly suggest a method of reducing power consumption in an integrated circuit communication link having a logic circuitry, the logic circuitry including supply-voltage-critical logic circuitry and non-supply-voltage-critical logic circuitry, the method comprising, among other things, that wherein the selectively interfacing step includes the step of selecting a minimal number of points at which the supply-voltage-critical logic circuitry interfaces with the non-supply-voltage-critical logic circuitry, as set forth in the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
